Sponsorship Prospectus

The International Symposium on Mathematical Programming (ISMP) is a triennial conference on mathematical optimization, gathering scientists from around the world to present and share their most recent advances and development in the field. It is also a unique opportunity to discuss new challenges and opportunities in practice and theory of mathematical optimization.

The 26th International Symposium on Mathematical Programming will be held in Amsterdam, The Netherlands, from July 25th through July 30th, 2027. The event is the symposium of the Mathematical Optimization Society (MOS).

ISMP2027
Amsterdam RAI Conference Centre
2000+ participants
